DETAILED ACTION

Response to Amendment

1. Applicant's arguments and amendments, filed on 6/25/2007, with respect to claims 1-2, 4-6, 8-20 and 28 have been fully considered but are moot in view of the new ground of rejection.

Claims 3, 7, 21-27 and 29-32 had been canceled.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 recites the limitation of "... said packets associated with said bitmap block to be in **said** unacknowledged state by said transmitter ...", wherein the "unacknowledged state" is not clearly defined before its first presence. There is insufficient antecedent basis for this limitation "**said** unacknowledged state" in the claim.

Furthermore, independent claim 1 merely recites the steps of deactivating the timer with a periodic reception of the bitmap block at the transmitter, but there is no clearly defined step of how the timer with a periodic reception of the bitmap block at the transmitter is activated at the first place.
